

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

APPLICATION OF BARREN COUNTY GAS)	
COMPANY, INC. FOR A CERTIFICATE)	
OF PUBLIC CONVENIENCE AND)	CASE NO. 92-259
NECESSITY AND ITS PROPOSED NATURAL)	
GAS TRANSPORTATION TARIFF)	

O R D E R

IT IS ORDERED that Barren County Gas Company, Inc. ("Barren Gas") shall file the original and ten copies of the following information with the Commission with a copy to all parties of record within 10 days of the date of this Order. If the information cannot be provided by this date, Barren Gas should submit a motion for an extension of time stating the reason a delay is necessary and include a date by which it will be furnished. Barren Gas shall furnish with each response the name of the witness who will be available at the public hearing for responding to questions concerning each item of information requested.

IT IS FURTHER ORDERED that an informal conference shall be held on August 5, 1992 at 1 p.m., Eastern Daylight Time, in the Engineering Conference Room of the Commission's offices at 677 Comanche Trail, Frankfort, Kentucky, for the purpose of discussing the matters related to this project.

1. Provide a complete description of the manner of construction including specification documents, bids, estimated

budget, construction schedule, and a breakdown of the cost of the construction.

2. Provide the feasibility study of this project, and provide the estimated cost of transportation of natural gas in the first 5 years.

3. Provide an estimate of the annual revenues anticipated to be generated as a result of the proposed extension over the next 5 years.

4. Provide system map(s) showing the safety features considered in the system including road crossings, regulation system, and other related facilities.

5. Provide details of any contributions Barren Gas is requiring the asphalt company to make.

6. Provide the following related to the proposed construction:

a. The operating condition and the actual maximum allowable operating pressure.

b. Pipe qualification record including specification, wall thickness, design pressure, test pressure, and specified minimum yield strength.

7. Provide the rationale for selecting a four-inch polyethylene transmission line.

8. Provide detailed drawings of the tap-on station including, at a minimum, the pressure regulators, gas meter and prover, and the location of the safety relief valve(s).

9. Provide the calculation for the sizing of the safety relief valves.

10. Provide any agreements and documents regarding the easements required for the route of the proposed transmission line.

11. The special contract for gas transportation service requires the customer to pay a deposit. Will all provisions of the deposit be pursuant to KRS 278.460 and 807 KAR 5:006, Section 7? Explain in detail.

12. Will Barren Gas require a deposit of all special contract transportation customers in the same manner?

Done at Frankfort, Kentucky, this 14th day of July, 1992.
